An aerial photograph of a ski resort in winter. The image shows several ski runs, some of which are marked with numbers. There are several buildings, including what appears to be a lodge or ski school, and a parking area. The surrounding area is covered in snow and surrounded by a dense forest of evergreen trees.

An aerial photograph of a construction site. In the foreground, there's a large, rectangular concrete foundation with a grid of reinforcement bars (rebar) visible. To the right of the foundation, there's a large, irregularly shaped area of cleared land. In the background, a multi-lane highway runs horizontally across the image. Several vehicles, including a yellow truck and a white van, are visible on the highway. To the left of the highway, there's a line of trees and a small, blue-roofed structure. The overall scene depicts the early stages of a large-scale construction project.

An aerial photograph of a ski resort area. A winding road or track, possibly a ski lift line or access road, curves through a landscape of snow-covered ground and dense evergreen forests. The road is bordered by a low wall or fence in some sections. The surrounding terrain is a mix of white snow and dark green trees, with some patches of brown earth visible. The overall scene depicts a winter sports area in a mountainous region.

An aerial photograph of a mountainous region covered in snow. A winding road or path cuts through the landscape, flanked by dense evergreen forests. The snow is bright white, contrasting with the dark green of the trees. The terrain appears rugged and steep.
